We are driven by the desire to enhance life's journey. We recognize that surfacing is just one component of a successful project - a beautiful space that creates the backdrop for what matters - and what really matters is something that can only be defined by you.

We continually push the boundaries of what is possible so we can meet the demands of today's diverse horizontal and vertical surfacing applications in homes, schools, healthcare facilities, hotels, restaurants, retail stores and more. Our goal is to enrich the lives of the people who live, work and play in those spaces by understanding what really matters, beyond aesthetics alone. Or quite simply, ELEVATE LIFE.

## MADE IN NORTH AMERICA

Our new 135,000 square foot manufacturing facility features the most state-of-the-art production equipment available, with the capacity to produce up to 300,000 sheets of solid surface annually. The facility produces solid surface sheets up to 60 inches wide, allowing a much higher degree of flexibility and efficiency in fabrication and installation, saving fabricators and their customers time and money. Additionally, the plant's central location in Temple, Texas allows us to better maximize product availability and proximity to customers and better serve the solid surface market with American made products.
